The declining tendency of this specialty has been quite marked recently, actioning stemmed at intervais by supporting orders and by covering purchases, but renewed flausiation carried the prices down 2 per cent, today to 120. It is understood that large lines were purchased some time ago in artistnation of a larger German export bounty than was actually fixed and in expectation of a sharp reduction in the cuban creey on account of the insurrection in the island. The dopen pound in the past five days and the American Sugar company is known to be carrying a large stock. Accordingly lower wall street is blue and has been selling its sugar stock. The play is one that last evening, drawn out by the memory last evening, drawn out by the memory of the "Fool's Revenge" as portrayed by Edwin Booth. The play is one that possesses no attractions to an audience unless there is some actor of the rank of Booth in the part of the fool. With an actor like Mr. Griffiths, whose attainments merely rise to the height of respectability, it simply amounts to a respectable performance, nothing more. There was nothing specially striking in the support, Mr. Smedley's lead being the best feature. He and Mr. Griffiths were recalled after the final death scene.

GRAVITY SEWER CLAIM. Treasurer May Finds It Impossible to Avoid Litigation.

The injunction re-straining the payment of the money was denied by Judge Street, and last Mon-day the time expired for taking an apday the time expired for taking an appeal to the higher courts. Upon advice of counsel. City Engineer Kelsey has now issued the orders on Treasurer May, who holds the money in trust, for the amounts as originally directed by the council.

Mr. May, however, refuses to honor the orders. This determination was reached yesterday after a consultation with his attorneys, it is understood that in the event that he should pay the money over, injunction proceedings would at once be instituted against him. On the other hand, if he refuses to issue the warrants, the contractors will begin mandamus proceedings to compel him to do so. Thus Mr. May will have a law suit on his hands to matter what his course is, and he has therefore decided to let the contractors take the
